Alejandro Pablos Sánchez

AI & Data Professional · Entrepreneurship & Innovation

ABOUT ME

Driven by how data and technology solve real business problems. Two years in IT consulting built my technical foundations, but I wanted more. So I moved to Oslo to pursue a Master's in Entrepreneurship and Innovation at UiO. Now building at the intersection of AI and product. Looking for roles where I can lead and drive meaningful impact, whether in a fast-moving startup or a corporate environment.

EXPERIENCE

Feb 2026 **Entrepreneurship & Innovation Advisor**

Present INSJ (UiO Growth House) · Oslo, Norway · Part-time

- Establish strategic partnerships with AI providers including Google AWS and Anthropic, enabling startups to access reduced costs through StartupLab, Norway's leading incubator.
- Advise early-stage founders on idea validation, business model development and funding opportunities.

Feb 2026 **Go-to-Market Lead (GTM)**

May 2026 Juridex · Oslo, Norway · Part-time

- Led commercial expansion of Juridex's legal tech solution in the Spanish market through B2B lead generation via LinkedIn outreach and cold calling.
- Established client relationships through structured demo periods and ongoing follow-up to ensure optimal customer experience.

Oct 2025 **Student Mentor**

Jun 2026 University of Oslo · Oslo, Norway · Contract

- Mentored Bachelor students from the Faculty of Informatics and Mathematics in courses IN1000 IN1010 and IN2140, helping them build confidence ahead of assignments and exams.
- Built a tech platform supporting exam preparation with interactive content and timed practice sessions.

Jan 2024 **Data & IT Consultant**

Jun 2025 NFQ Advisory Solutions · Madrid, Spain · Full-time

- Mapped business processes and built data pipelines and analytics platforms for large banking and insurance clients.
- Delivered a Power BI dashboard improving internal monitoring of recruitment operations for the HR Department.

Mar 2023 **Computer Vision AI Trainee**

Jul 2023 ITP Aero · Madrid, Spain · Full-time

- Developed a Computer Vision classification model to detect structural defects in aircraft components from X-Ray images, replacing a slow manual inspection process.
- Delivered as master thesis in collaboration with the engineering team, graded 10/10 with Honors.

EDUCATION

Aug 2025 **Entrepreneurship & Innovation Management, MSc**

Present University of Oslo (UiO) · Oslo, Norway

Core frameworks in business innovation, finance and opportunity assessment. Acting as CTO of ClearTerms, a student venture at StartupLab Oslo building an AI adoption platform for SMEs, developed end-to-end using AI-first practices and Claude Code.

Sep 2022 **Applied Artificial Intelligence, MSc**

Sep 2023 Carlos III de Madrid University · Madrid, Spain

Cross-disciplinary foundation in Generative AI, Machine Learning, NLP and Business Intelligence, with a focus on real-world application. Thesis with ITP Aero graded 10/10 with Honors.

Sep 2018 **Computer Engineering, Bachelor's Degree**

Sep 2022 Carlos III de Madrid University · Leganés, Spain

Full-English degree with a strong foundation in software engineering and computer science. Erasmus+ exchange at NTNU, Trondheim (2021/22), first academic experience in Norway.
